Literacy Resources for Online Learning

Dear Families

To encourage students to continue reading for independence and success we are pleased to provide all students with access to the **Sunshine Online** resource.

Sunshine Online is a digital literacy program and will be available on all school ipads and laptops.

The resource offers students access to ebooks and interactive activities to help them learn to read and understand mathematical concepts. The ebooks include phonics, fiction and nonfiction and gives access to 560 e-books and 1000 activities. The books are divided into three learning levels: emergent, early and fluent and contain levelled texts from Level 1 – Level 30.
